DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to a method for generating two-way text messaging between a caller and a subscriber of a call receiving pager apparatus, classified in class 340, subclass 7.21.
 - II. Claims 5-10, drawn to a call receiving pager apparatus operative in a radiotelephone communications system, classified in class 455, subclass 408.
 - II. Claims 11-17, drawn to a call receiving paging apparatus comprising a housing including a printed circuit board contained therein and a detachable module, classified in class 340, subclass 7.63.

The inventions as claimed are distinct, each from the other because of the following reasons:

2. The claimed inventions I, II and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a computer for sending email messages. Invention II has separate utility such as a telephone for making telephone calls. Invention III has separate utility such as a housing for a car/portable radio. See MPEP § 806.05(d).

Art Unit: 2635

3. Because these inventions (I and III vs. II) are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to the applicant on April 24 and May 1, 20 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an **election of the invention to be examined** even though the requirement is traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
